

You think you're pretty smart, right?

Celebrate
National
Library Week
April 15-21, 2007

Today's library is not what you remember. It's even better.

Want to research your next vacation? Get homework help? Start your own business? Surf the Web? Or maybe you just want to curl up with your favorite book and enjoy some peace and quiet. It's all at your local Montana library. Make a visit to your library a regular part of your schedule and bring the whole family together.
